"The CURE & Parents"

by Bill & Grace Thrall, John & Stacey Lynch, and Bruce and Janet McNicol

No, this is NOT another parenting "how-to" book. Personally, I won't read parenting "how-to" books. Too often they promise more than they deliver. There is something here for each of us, no matter where you may be on your parenting journey, or even if parenting has not and may not be a part of your journey.

The authors write, "Whether we are reacting to our parents, planning to be parents, overwhelmed at being parents, or learning to stand with our kids as they now parent, we need to know there is a way home. A way to be convinced God is in the middle of every stage of our family."

"The CURE & Parents" follows a family of four as they travel together on summer vacation...and we all know what road trips can be like. As they drive up and down the west coast the experiences they share interpersonally are as varied as the scenery outside their car windows. And, in time, we will find our own parenting journey intersect with theirs as they learn to find each other.
